-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1 and 4 (figure 5) in the reply filed on 09/15/05 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Gee (US 6,125,792).

In regard to claim 1, Gee teaches a restraint (100) for walking or other activity comprising a primary strap (50, 20l, 20r) of sufficient length to circle the restrainee's body and long enough to be held by a guardian (figures 3-5). A first secondary strap (20L) attached left of the center of the primary strap and a secondary strap (20R) attached right of the center of the primary strap. Each secondary strap (20L, 20R) having a loop (41B, 41C) on the non-attached end and each secondary strap being of sufficient length to pass around the restrainee's body, cross and allow the primary strap to be threaded through each secondary strap loop at the restrainee's back (figures 3-5).

In regard to claim 4, Gee teaches the primary strap (50) placed horizontally across the front of the restrainee at the level of the axillae (figures 3-5). The left secondary strap (20L) is brought over the restrainee's left shoulder to the restrainee's

back. The right secondary strap (20R) is brought over the restrainee's right shoulder to the restrainee's back (figures 3-5). The left end of the primary strap is brought under the restrainee's left axilla and threaded through the loop at the end of the left secondary strap (figures 3-5). The right end of the primary strap is brought under the restrainee's right axilla and threaded through the loop at the end of the right secondary strap (figures 3-5). The ends of the primary strap are capable of being held by the guardian so as to restrain the restrainee (figures 3-5).

Conclusion

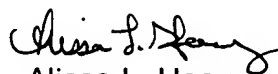

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hampton, Whidden, Nunn, Oliphant, Jacobson, McCook, Smith, Hutchings, Cornell, Martusciello, Gwon et al., Arakawa, Lacoste, Sporn, Giancaspro and Meyer are all cited to show closely related garment articles.
